Remote functionality

This cable kit will together with the Mimer Network Interface LE (3130) give remote control of the radio's audio and PTT functions.

It will provide no channel change or other functionality.

Radio connection

The cable kit connects to the back port of the radio. The same that is otherwise used for the Command Microphone, HM-195 (HM-195B/SW, HM195GB/GW).

Power connection

The red and black wires shall be connected to 12VDC, red is positive.

The network interface consumes max 0,3A.
