

Cable Kit 3505 Interface 3009/09 or 3130

Refcom II

Remote functionality

This cable kit will together with the Mimer Network Interface give remote control of the radio's audio and PTT functions.

Radio programming

No special programming is needed in the radio unit.

Using Interface 3009/09

The connection between Refcom and SoftRadio will be in full duplex. The operator can still listen while transmitting.

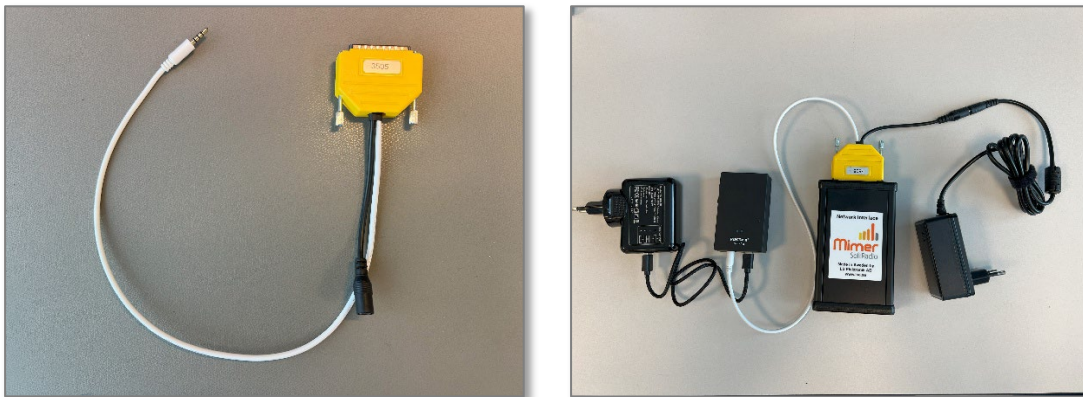

Using Interface 3130

The connection between Refcom and SoftRadio will be in half duplex. When transmitting, the operator will not be able to hear the conversation in the Refcom system.

Power Connection

The cable kit has a standard plug for a 12V adapter. Positive in the middle.

The network interface consumes max 0,3A.

Cable kit and connection to Refcom II.
