

Cable Kit 3544 Interface 3009/77

Mimer SoftRadio – Safeline 4G-modem (3566)

Remote functionality

This cable kit will together with the Mimer Network Interface give remote control of the phone modem.

The operator will be able to make and receive phone calls from the SoftRadio software. More details are found in the setup instructions found on www.lse.se/technicaldownloads

Modem programming

No special programming is needed in the modem unit. It is setup automatic when connected to the network interface.

A SIM-card is needed to make calls.

Cable Kit

The interface is connected to the modem through two separate cables.

Both units are powered through the cable kit from an external PSU, 12VDC, >2.9A.
