

Cable Kit 3553 Interface 3554

Mimer SoftRadio – Desktop Phone

Remote functionality

This cable kit will together with the Mimer Network Interface give remote control of the desk phones handset audio.

From Mimer SoftRadio you can use either a headset, handset or tabletop microphone together with the desk top phone.

Programming

No special programming is needed in the desk top phone.

Different phone units might have different audio levels and therefor the audio levels in the network interface might need to be finetuned. See the manual for network interfaces for details.

Cable Kit

The interface is connected to the phone through the RJ9 connector normally going to the handset.

The interface is powered through an external PSU, 12- or 24VDC, >1A.
