

Cable Kit 3166/02 Interface 3009/42

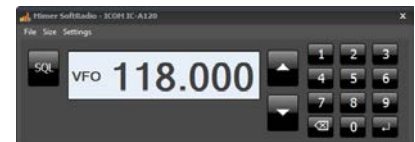

Mimer SoftRadio for Icom IC-A120

Remote functionality

This cable kit will together with the Mimer Network Interface give remote control of the radios audio and PTT functions.

It will also, through a Virtual Control Head, give the possibility to change channel and set the squelch level.

Virtual Control Head A120

Radio programming

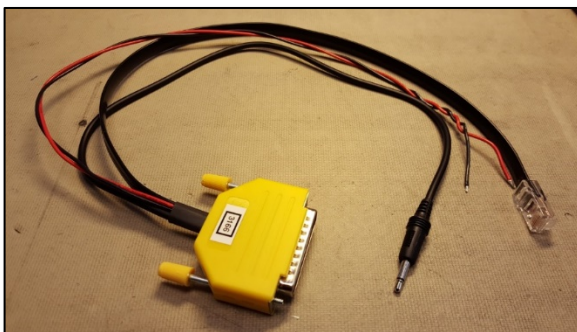

No special programming is needed in the radio.

The radios volume control knob shall be set for 50% volume. This is when the knob points straight up (12 o'clock).

Cable Kit

The red and black wires shall be connected to 12VDC, red is positive.

The network interface consumes max 0,3A.
