Cable Kit 3328
Interface 3009/60

Mimer SoftRadio for Trig TY91

Remote functionality

This cable kit will together with the Mimer Network Interface give remote control of the radio's audio and PTT functions.

It will also, through a Virtual Control Head, give the possibility to change channel and set the squelch level.

Virtual Control Head for Trig TY91

Radio programming

No special programming is needed in the radio.

Cable Kit

The red and black wires shall be connected to **12VDC**, red is positive.

The network interface consumes max 0,3A.

*Note that the TY91 can be run on either 12VDC or 24VDC. But the standard network interface is **12V only**.*
