Cable Kit 3398
High Durability Interface 3400

Mimer SoftRadio for Trig TY91

Remote functionality

This cable kit will together with the Mimer Network Interface give remote control of the radio's audio and PTT functions.

It will also, through a Virtual Control Head, give the possibility to change channel and set the squelch level.

*Virtual Control Head for Trig TY91*

Radio programming

No special programming is needed in the radio.

Cable Kit

The red and black wires shall be connected to 11-33V, red is positive.

The network interface consumes max 0,3A.

A special cable is needed for IP connection, since the interface does not have the standard RJ45. This cable is called 3410.

High Durability Interface, 3400
