Cable Kit 3328/03 & 3328/04
Interface 3009/60

Mimer SoftRadio for Trig TY92 Airband radio

Remote functionality

This cable kit will together with the Mimer Network Interface give remote control of the radio's audio and PTT functions.

It will also, through a Virtual Control Head, give the possibility to change channel and turn the squelch on/off.

Virtual Control Head for Trig TY92

Radio programming

No special programming is needed in the radio.

Cable Kit

The red and black wires to the interface, shall be connected to **12VDC**, red is positive.

The network interface consumes max 0,3A.

The red and black wires to the radio, shall be connected to **24VDC**, red is positive.

*Note that the TY92 shall be run on 24VDC. But the standard network interface is **12V only**.*
